class of forty, ⁴_____ students say that
football is their favourite sport.
A quarter of the students prefer ⁵_____,
and ⁶_____ prefer tennis. Only
⁷_____ people prefer snowboarding,
and the least popular sport is ⁸_____.

Extension activity

- Work with a partner. Choose a topic for a class survey. (For example: favourite foods / music / films / film or sports stars.) In your notebooks, write a survey question and draw a tally table. Interview your classmates. Then draw a bar chart of the data. Present your bar chart to another pair or the class. Use the report in exercise 6 as a model.
