speaking / English
_____.
- 4 I / new / bought / a / just / boots / of / pair
_____.
- 5 ugly / supermarkets / sold / it / fruit, / I / if /
would / buy
_____.

Reading

Schools then and in the future

A hundred years ago classrooms looked very different from today. There didn't use to be any computers or calculators. Teachers used to write out lessons on a blackboard for the students to copy. The students used to write with ink pens and class sizes used to be very big. There were sometimes more than sixty students in a class.

So, what will schools look like in the future? One way we can get some idea is to look at science fiction films. We see that technology will play an even bigger role in how we learn. Many people believe that the schools will become completely electronic. There will be no more textbooks in lessons and everything will be done on tablet computers. There could be virtual lessons and teachers will be able to recreate a period from the past in 3D in the classroom. There may even be robots instead of teachers and your fellow classmates could be taking part in the lesson from different countries around the world. It's an amazing thought.

7 Complete the sentences. Write two words in each sentence. (10 marks)

- 1 Teachers used to _____
lessons on a blackboard.
- 2 Class sizes were _____.
- 3 Many people believe that the schools will
become _____.
- 4 Teachers will be able to recreate a period from
the past _____ in the
classroom.

- 5 There may even be _____ instead of
_____.

Communication
